

KINGDOM AIR RX RANGE

Kingdom Air RX oil free compressors have been designed from the ground up to offer users the most reliable source of compressed air on the market whilst maintaining low noise levels. Utilising only the best components from well-known brands such as Condor and Airtac, the RX range features 100% duty rated motors and our innovative “clear view drain” system which allows you to visually see if the tank has any water inside it. With standard working pressures of 8 bar (and 10 bar available on request), RX compressors are able to consistently deliver high quality, oil free air. With the optional desiccant dryer, dewpoint levels can be reduced as low as -40°C for when air is to be used with sensitive components. The entire RX range can be run off a single 13 amp plug and has noise levels as low as 60 dB(A). With low service costs and a comprehensive 2 year warranty covering mechanical parts, and 5 year warranty on the internally coated tank, you can rest assured you are well protected when you choose a Kingdom Air compressor.
